To assemble corsage

Place inner circle over outer circle and pin into place.
Position leaves behind the outer circle, radiating from the centre as if clock hands reading 10 minutes to 11 when viewed from above (see diagram). Pin into place.
Take Tendril 1 and thread the long tail of yarn through the tapestry needle. Bring the needle up through all layers in the centre of the inner circle. With the needle laid flat close to the surface of the inner circle make a French knot. (Wrap the yarn round the needle 4 times. Hold this 'wrapping' with one hand while pulling the needle and yarn through it. Push the needle down through all layers underneath the wrapping to complete the knot). Create three further French knots around the central one and then finish of yarn end securely on the wrong side. Remove the pin which was holding the layers in place.
Take Tendril 2, thread the long end with the darning needle and bring the yarn up through all the layers to make the next French Knot. Make three further French knots, continuing the circle of knots in the middle.
Take Tendril 3, thread the long end and make one further French knot.
Turn corsage over and using the threaded needle, overstretch the full length of the non-opening side of the safety pin to the back of the corsage.

Pin onto one lapel to add that finishing touch.
